

TONY ANGLESEY

Sr Full Stack Developer

312-307-9758 | tanglesey@gmail.com | github.com/tonyanglesey | New York, NY

SUMMARY

Experienced Senior Front-End Developer with over 25 years of expertise in building high-performance, scalable web applications. Proficient in modern JavaScript frameworks (React, Angular, Vue) and passionate about crafting responsive, accessible UIs. Known for a user-centered approach, attention to detail, and driving best practices in agile environments.

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer (05/2024 - 09/2024) San Diego, CA - Remote
eXcelisys

- Led full-stack development using LAMP, AWS IoT, EC2, Node/React, PHP, CakePHP, MySQL, MongoDB, and MVC frameworks.
- Managed server instances, CI/CD automation to AWS, and DataTables integrations; maintained BitBucket Git workflows.
- Extensive CMS work with WordPress, Joomla!, Drupal, Magento, including WooCommerce and custom plugin development.

Lead UI/UX Developer (02/2022 - 02/2024) Atlanta, GA - Remote
KEH.com

- Directed UI/UX for Magento and Adobe Commerce, and architected WordPress components.
- Collaborated with design teams to deliver e-commerce and blog UI, developing wireframes and Figma-based UI components.
- Delivered a production-ready application on a tight schedule, managing UI redesign and deployment.

Lead Front End Developer (01/2022 - 03/2022) New York, NY - Remote
Projekt202 - Bell Ca

- Led an 8-member team in updating Bell.ca's HTML code for WCAG compliance within a Java environment.
- Achieved accessibility compliance under tight timelines, ensuring legal standards were fully met.

Sr. Front End Developer (06/2021 - 09/2021) Chicago, IL - Remote
Kove

- Built a React-based greenfield application from scratch, integrating TypeScript, Highcharts, and D3.
- Developed wireframes, sitemaps, and production-ready prototypes within a strict 3-month deadline, employing React hooks.

SKILLS

Languages:
JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries:
React, Redux, Node.js, Angular

Design & Prototyping:
Figma, Sketch, Adobe XD, Wireframes

Content Management:
WordPress, Magento, Drupal, Salesforce, SiteCore

Deployment & Cloud Services:
Vercel, Google Firebase, AWS

Sr. Front End Developer (06/2021 – 09/2021)

Chicago, IL – Remote

STA Group – CUNA Mutual

- Collaborated with a U.S.-wide team on a React and Redux loan application, delivering features in bi-weekly sprints.
- Consistently met project milestones with tight deadlines, using TypeScript and JavaScript for robust app development.

Lead UI/UX Developer(05/2020– 12/2020)

Los Angeles, CA – Remote

Katch Media

- Designed and developed a prototype web application for media management, handling over 1,500 media genomes.
- Built an internal app in React 16.13, TypeScript, Firebase, and D3, utilizing real-time databases and React D3 Charts.
- Managed application architecture and NoSQL schema design to onboard new staff seamlessly, meeting strict project deadlines.

Lead Front Developer(09/2019– 12/2019)

Chicago, IL – Remote

5th Column / UncommonX

- Developed security applications in React 16.8 using Hooks, with interactive real-time data visualization via D3, ChartJS, and Vega.
- Created custom components, UI/UX style guides, and Figma UI elements; designed API for MongoDB/Node JS chart integration.
- Built rapid prototypes and high-fidelity POCs, utilizing Angular/TypeScript, ES9, and the Bootstrap 4 grid system.

Sr. UI/UX Developer (02/2019– 12/2019)

New York, NY – Remote

SQAD

- Developed Angular/TypeScript and Ag-Grid dashboards on AWS, enabling real-time client data updates via websockets.
- Designed and implemented comprehensive UI/UX components, including wireframes, style guides, and functional prototypes.

KEY PROJECTS

Zen Fitness – Health and Fitness E-Commerce Web Application

www.zenfitness.com

- Developed a personal health and fitness e-commerce application, initially using a custom Shopify theme and migrating to a React-based custom solution. Integrated a blog with WordPress API and designed a responsive, user-centered UI/UX in Figma to enhance engagement and usability.

Llama – Cryptocurrency and Blockchain platform

www.lla.ma

- Built a cryptocurrency application currently in its ICO stage, using React and Firebase. Leading migration to Web3 with MetaMask integration, Solidity smart contracts, and Binance Smart Chain (BSC) compatibility. Created an intuitive U/UX with Figma, enhancing accessibility for both novice and experienced users in the crypto space.
